

Deegam® Reports

DEEGAM ® REPORTS update *The Complete Deegam ® Machin Handbook*. They are issued every 10 weeks or so and are free to owners of the Handbook who register their Personal Reference Number (PRN), allocated at the time of purchase.

The most recent Reports can be downloaded from www.deegam.com, using your PRN to access the protected area of the website.

Reports from No. 76 onwards have been incorporated into the master files on the CD. They are included in the `deegam\reports` folder.

The table below lists them and shows their main content. The full content of each Report file is shown in its Bookmarks when you open it.

Each DGR number in the first column of the DGR Index table is a hidden link to that Report. Items in more recent Reports that have a blue underline, indicate a link to other files on the CD

Click anywhere on this yellow area to open the HB-Start file

DGR No.	Date issued	Pages	Main content
